## Watches Net sales growth rate by region

Rate of change year on year

Performance in North American and Europe stayed strong. In addition, performance in Japan and China improved.

- Japan Sales increased, reflecting the solid performance of new products in particular, although consumer confidence stayed poor due to the high cost of living.
- China Despite the weakening impact of COVID-19 and the recovery in the movement of people, consumption had yet to fully recover.
- Asia Strong performance was maintained in India, Singapore and some other countries, although the recovery was patchy.
- America In addition to the briskness of the main distribution channels including department stores and jewelry chains, the increase in tourism demand was helpful.
- Europe Sales increased due to strong sales in many areas, including the U.K., Germany and France.
